Brindle & Green's comprehensive services have made them my go to consultant for ecology, landscape and trees for the last 3 years. Their approachable team are adept at identifying potential environmental risks and implement effective solutions, whilst promoting sustainable practices. Their expertise has provided valuable support in the planning application process and helped us gain consent of residential development for many of our developer clients. I would highly recommend Brindle & Green to any organization seeking a knowledgeable, reliable, and environmentally conscious partner for planning applications and beyond.

Founded in 2012 as a specialist ecology consultancy provider, largely to the homeowner market, Brindle & Green has established itself as a multi disciplinary environmental consultancy serving the wider development industry.

Operating UK wide with specialisms in ecology, arboriculture, landscape, archaeology and contracting, the ability for our teams to work closely to provide collaborative approaches to projects whilst saving our clients time and money in the process is key to our success.

With a team of 40-50 we are well equipped to tackle complex and large scale schemes whilst retaining a personal approach – meaning you can get to know us and reach us when needed.

Brindle & Green is a business founded on the core principles having a driven, happy, supported and fundamentally excellent team and that in turn enables us to provide the absolute best we can to you and your clients.

Arboriculture

A highly experienced and capable in house team of arboricultural consultants deliver tree surveys, AIA, AMS & woodland management plans to a diverse range of sectors across the UK.

- BS 5837 Tree Surveys
- Arboricultural Impact Assessments
- Arboricultural Method Statements
- TPO/Conservation Area Work Applications
- Investigatory Root Reports
- CAVAT Assessments
- Woodland Management Plans

Brindle & Green have provided Miller Homes with ecological, arboricultural and landscaping services on a number of our sites. The B&G team operate in a friendly, efficient and professional manner, and it is always a pleasure to work with them.

- Helen Dawkins, Miller Homes

Archaeology

Our fully qualified and experienced archaeologists work primarily for the planning and development sectors and provide WSI, desk based assessments, trial trenching and excavations.

- Archaeological Desk-Based Assessment
- Heritage Statement
- Written Statement of Investigation
- Geophysical Survey
- Archaeological Watching Brief
- Archaeological Evaluation
- Archaeological Excavation

“The archaeological services provided by Brindle & Green continue to exceed expectations. When assessing development opportunities, Tom and his team consistently deliver reliable advice and outcomes. From initial written assessments to detailed on-site investigations, Brindle & Green’s archaeological team ensure an appropriate balance is struck between existing assets and development opportunities. Timescales are established upon project commencement and wherever possible are accelerated, improving delivery timetables.”

- Robbie Locke, Head of Planning & Strategic Land, Copra.

Contracting

Our largest growth area. Our contracting teams are specialists in the field of creating and managing habitats for the benefit of biodiversity alongside offering ecological mitigation fencing and badger sett closure and creation.

- Badgers
- Tree Works
- Landscaping
- Habitat Creation
- Habitat Management
- Fisheries Management
- Protected Species Fencing

“

My team thoroughly enjoy working with Brindle and Green and all their dedicated staff involved in our projects. Their knowledge, professionalism and reports ensure that all our developments run smoothly from an ecological perspective and collectively we have a great working relationship which is vital to our business.

”

- Wayne Worsdale, Mulberry Homes

Ecology

The core service that we started with, our ecology team has grown into an impressive department offering every possible service relating to the planning and development sectors. PEA, PRA, biodiversity net gain, protected species surveys, mitigation documents and licensing.

- PEA
- PRA
- Mitigation Licences
- Protected Species Surveys
- Ecological Impact Assessments
- Biodiversity Gain
- Habitat Regulation Assessment
- Phase 2 Surveys

“

The entire team at Brindle & Green consistently demonstrate high levels of proactiveness, professionalism and reliability. Cora regularly trusts Brindle & Green to provide expertise across multiple disciplines, including Ecology, Landscape, Arboriculture and Archaeology.

”

- Robbie Locke,
Head of Planning & Strategic Land, Cora.

Landscape

Our in house landscape architects bring a wealth of experience in their field. Industry experts offer LVIA and expert witness alongside a team delivering landscape design, landscape character assessment and garden design.

- LVIA
- Landscape Design
- Planting Plans
- Landscape Management Plans
- Implementation / Site Supervision
- Character Assessments
- Townscape Character Assessments
- Green Infrastructure Strategies
- Garden Design

“ Thank you for your excellent work on this matter. It was a pleasure to work with you and hopefully we may get the opportunity to do so again in the future. ” - Lee May, Brachers LLP (Island View, Wormshill)
